

FACE SHAPE GUIDE

Find the frame that best complements your face.

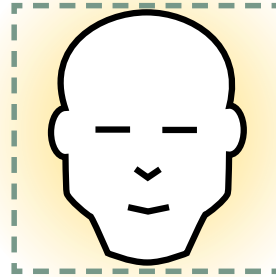

Not sure? Take a quick look in the mirror or ask a friend to help find the face shape that is closest to yours.

Oval

Rounded forehead and chin of equal size.

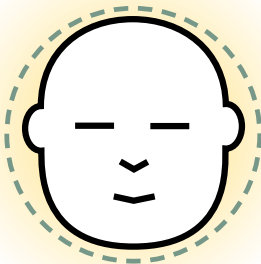

Most frame styles, particularly geometric or round frames.

Square

Wider forehead, cheek and chin area with a slightly angular jaw.

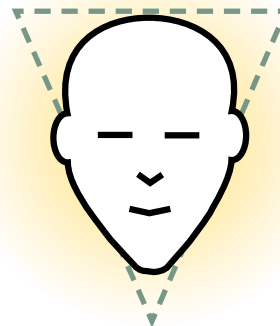

Round or oval frames soften angular facial lines.

Rounded

Larger, curved forehead, full cheeks with a round chin.

Rectangular, navigator, square or geometric frames to sharpen the features and create definition.

Triangular/Heart

Wider forehead narrowing gradually to a slightly rounded chin.

Square, navigator, rectangular or geometric frames to add width to the chin and cheek area.
