# Instruments That Outperform...Here's Why:

M A S T E R C L A S S S E R I E S

## Head Joint Features Beveled Lip Plate

Flute designers have many opposing viewpoints about flute design and construction, especially when it comes to the head joint. The Suzuki flute carries a combination of features that create ease of blowing, great intonation and even register response. A special beveled undercut blow hole assures accurate chimney placement giving the beginning flute player greater pitch control in all registers.

## Top Grade Imported Double Pads

A major element in any woodwind instrument, the quality of the pads are often the difference between an instrument that plays well and an instrument that never quite makes the grade. Flutes have many pads and every one must securely cover and close the tone holes with perfect fit to ensure ease of play and intonation. Suzuki uses only the finest imported bladder pads, not synthetic pads, for long life and exceptional seating characteristics.

## Professional Logo Engraving

Found on only the most expensive imported professional flutes, all Suzuki Flutes have expertly hand engraved logos. Students will take pride in knowing that their instrument has the quality look, feel and sound of an instrument that cost much more.

## Highest Grade Silver Plating

Unlike other manufacturers who chrome plate their flutes, Suzuki uses professional plating techniques to give each flute a double layer of silver for a long lasting shine and good silver tone characteristics. This creates a tone that is warm and rich, and gives the Suzuki flute a professional sound that will encourage young players.

## Hidden Adjustment Screws, Professional Style Bumpers

Most inexpensive student flutes use synthetic cork bumpers and cushions. Suzuki flutes feature the highest grade cork for virtually noiseless and smooth operation. This creates a firm feel found only on most professional flutes. Adjustment screws are hidden under the post-rod setup to discourage "adventurous" young players from attempting key adjustments on their own.

## Rugged Aluminum "Roadie" Cases

Indestructible, lightweight and "hip" looking, every music student will be excited and proud to carry their chosen instrument in a Suzuki "Roadie" style case. Its special construction will protect the instrument for many years. Unlike a soft case which exposes the instrument to damage, our strong aluminum frame and custom formed soft foam interiors provide the ultimate choice for long term use.

## Deluxe Accessories

Everything is included with your Suzuki Flute Outfit. This exceptional instrument with many professional features also includes cleaning rod, tenon grease and polishing cloth.

# Brand Name Quality at Prices You Can Afford!

MASTER CLASS SERIES

## PRO STYLE BUMPERS

Hidden adjustment screws with real cork feature professional style bumpers.

## HAND ADJUSTMENTS

All rods, posts and keys are hand adjusted for best playability.

## QUALITY PLATING

Highest grade double silver plating is applied to the head joint, body and keys.

## PADS

Hand set, top grade imported double bladder pads insure long life and superior seals.

## KEYS

Specially fabricated copper/nickel keys are designed for maximum playing comfort and key strength.

## ENGRAVED LOGO

Like any professional flutes, Suzuki Flutes carry hand engraved logos.

## LIP PLATE

Head joint features lip plate with beveled undercut blow hole for easy blowing and excellent intonation.

## HEAD JOINT

Carefully machined head joint construction insures even register response.

## TENONS

All tenons are engineered to exacting standards for a perfect joint section fit.

# World's Largest Manufacturer of Musical Instruments for Education

## M A S T E R C L A S S S E R I E S

Established in 1953, Suzuki has been dedicated to producing its ever-expanding selection of instruments with continuous design innovation and

product improvement. Suzuki takes pride in attaining a precision quality certification of ISO 9001. This level of certification is

usually found only in the aerospace and high technology industries.

Founded in Hamamatsu, Japan, Suzuki has grown into a truly international manufacturer with major production facilities in Japan, Korea, China and the United States. All of

our factories are focused on the common goal of providing the world with the affordable means to positively communicate

through the universal language of music. We know that making music is not only great fun, it also nurtures positive life attributes like understanding, respect, creativity, cooperation and personal expression.

Unlike other newcomers to the field, we have been actively involved with music educators on every level from grade school through college for decades.

Their input was essential in the development of our band and orchestral

instruments. No other entry level instrument has the professional features,

production quality and specially designed cases that Suzuki brings to every instrument. We take great pride in our special, long term

relationship with the dedicated music professionals in your area and strive to

meet and exceed their every demand.

Suzuki...the name you know for the music in your life.
