

Assembling the HANGING BAR

STEP 4

1. Plug one end of the HANGING BAR SUPPORT POLE (L) into each of the smaller holes in the POLE STOPS (P).
2. Plug the HANGING BAR CROSS POLES (M) into the larger holes in the POLE STOPS (P). This now creates the Hanging Bar Assembly. The larger POLE being on top with the POLE STOP tabs facing up to keep hangers from sliding off.
3. Push the POLE LOCKS (N) onto the center posts at the top of the SORTER HANDLES (G). The thumb lock is at the top.
4. Hold with both hands the SUPPORT POLES for the Hanging Bar Assemble and slide the poles into the POLE LOCKS and lock into place using your thumb to press the lever tightly onto the support poles. The poles can be adjusted in height by using the pole locks to adjust.

NOTE: If the SUPPORT POLES do not slide easily the POLE STOPS may not be pushed in tight enough toward each other.
